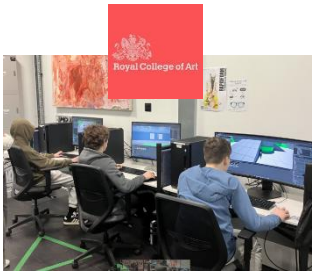
Unified Academy newsletter

National Careers Week (NCW) is a celebration of careers guidance in education across the UK. The aim is to provide a focus for careers guidance to help support young people develop awareness and excitement about their future pathways.

Unified Academy is lucky enough to have visitors in for the next two weeks including NHS responders, care sector, building site contractor, a trip to the Royal College of Art, the Housing Association, Surrey Police & the British Army Elite skills academy training!

What an amazing opportunity!



Science!

This week, our would-be Scientists used a mixture of bicarbonate of soda, vinegar & lemon juice to explore gases! They also created exploding pots with Steridents tablets mixed with vinegar & lemon juice to explore which would produce enough gas to blow the lids off! Then finally, it was out with the Diet Coke & Mentos to release carbon dioxide gas to make a huge explosion!

Marvellous Modroc

Remember the Modroc dragon eyes which the Year 10 students had started last week? Well, they created some amazing sculptures & managed to complete these this week! What creative skills!
