First Aid Training

The students in KS3 all got a chance to practice some first aid training this week which included how to help someone who is choking, who may be unconscious or has a severe burn. All students were engaged and respectful to the NHS First Aid Responder & fully & keen to learn these life-saving skills.

Congrats Year 9!

Congratulations to all the year 9s for completing their first BTEC unit in Healthy Eating! So, this week, they got to make their own smoothies to celebrate. Well done year 9!

Hooked in!

Now the weather is hotting up, so are we! Each week, during PD, a group of students try their luck at Henfold Lakes where they have been lucky enough to reel in bream and roach!

Back of the net!

Our U16 team had an ***outstanding*** league campaign, winning four games and drawing two. They conceded only two goals all season and finished with an ***impressive*** goal difference of +11, earning a well-deserved invitation to the Champions Cup!

The U13 team also performed ***brilliantly***, finishing second in their league with two wins and two draws. Their strong efforts have secured them a place in the Plate Championship. All students represented the school with enthusiasm and determination & everyone involved had a fantastic time! Well done boys!
