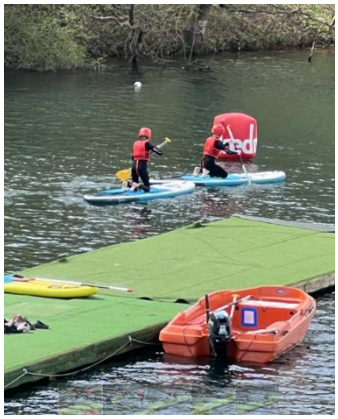
Paddle boarding

Now Summer term 1 is underway, we have welcomed the sunshine! Some students were lucky enough to enjoy their afternoon PD session at Mercers Lake paddleboarding where they firstly learnt basic skills in core strength & balance. Once they were confident, they then ventured out further & put their newly learnt skills to the test! Amazing confidence & growth mindset!



Pretty Polly

During a CAL (Canine Assisted Learning) session, students got to spend time in the outdoor learning area where they were set tasks to collect various items. I'm sure you'll agree that Polly the dog looks like she enjoyed it just as much as the boys!

Barista Skills

This week, we welcomed Howie into school to deliver a series of Barista sessions for some of the students! The sessions were a great success with students showing excellent engagement, focus & enthusiasm throughout. Students had the opportunity to make coffee (decaf) for themselves and for staff which they took great pride in & completed successfully showcasing teamwork, confidence & a positive attitude throughout.

3D printing!

Here is Lochlan with his Switch game holder he designed in 3D printing! Wow! It took 8 ½ hours to print – what a wait but well worth it!
