Ninja Warriors!

Some of our students are lucky enough to test their strength & balancing skills out at Ninja Warriors each week!

The adventure park offers them a supervised activity & fitness experience inspired by ITV's hit tv show. Students are tested on their Ninja skills while climbing, balancing and swinging across obstacles or bouncing across the inflatables – plus, there is the famous Warped Wall for them to conquer!

Science Museum

The Thrive students had an out of this world day out in London at the Science Museum as part of their topic on space!

The new exhibition they visited, *Space*, brings together remarkable exhibits that celebrate both the first space age and the future of space exploration.

Here, they discovered inspiring stories of human achievement in space travel, and saw significant space objects from a new perspective including a world first, two human flown spacecraft (Apollo 10 and Soyuz) displayed alongside one another, allowing visitors to compare the differences between a spacecraft that orbited the moon in 1969 and travelled to the International Space Station in 2015.

Legends of the week!

As exams begin next week, we would like to wish all of our students the very best of luck. This is an important opportunity for students to demonstrate the progress and hard work they have shown throughout the year. We encourage all students to prepare well by getting plenty of rest and approaching each exam with confidence and a positive mindset. Thank you to families and staff for their continued support during this busy period. We are incredibly proud of the resilience and determination our students continue to show, and we know they will do their very best.
